SKILLS

PROGRAMMING

Languages

- Advance: JAVA
- Intermediate: Typescript
- Novice: HTML, CSS, Python

Framework & Library

- Sprint Boot
- Angular

Databases

- SQL Server (RDBMS)
- Azure Cosmos DB (NoSQL)

Cloud Technologies

- Azure Cloud
- Azure Kubernetes Service

OTHERS

- Teaching
- Blogging
- Fitness Enthusiast

EXPERIENCE

2 YEARS 7 MONTHS

KANTAR | SOFTWARE ENGINEER - II | APRIL 2023 - PRESENT

FULL-TIME | Bangalore, India

- Worked in cross-functional teams to offer one of the important features, which would generate customised power points with significance, allowing the client to determine which decision is best suited.
- Improved metric configuration by integrating search functionality across components using custom pipes in angular.

KANTAR | SOFTWARE ENGINEER - I | MAY 2021 - MARCH 2023

FULL-TIME | Bangalore, India

BACK END - JAVA | SPRING BOOT

- Achieved enhanced security in Microservices by integrating Azure Key Vault, securely retrieving credentials via key and secret in the Sprint Boot.
- Developed and taken ownership of an entire feature for the comparative view of one of the dashboards, which had a vital part in boosting the business.
- Developed power point presentations utilising the Aspose java library to build dynamic presentations based on customer demands, which also played a vital role in decision making..

FRONT END - TYPESCRIPT | ANGULAR

- Enhanced the performance of the Compare Page by 40% by creating reusable components that will reduce future development effort.
- Worked on a product that will produce configurable PowerPoint presentations based on client needs, where it's a major driver of revenue growth.

ACHIEVEMENTS

- Awarded in the category "Ace of Initiative" for the first quarter of 2023.
